

This is an application for a drilling permit submitted to the COGCC. The well is located outside of La Veta near the Oakdale processing plant. The permit is for a well to be drilled on the existing drilling pad. More information can be obtained by going to the COGCC web site. On the left of the screen (menu), click on permits. Once in permits where it asks about pending permits, go to the drop down menu, plug in Huerfano, and click GO. This will take you to both of the pending permits; one for caddell 2, and one for the Andretta 3. You can then click onto the well number under status column to get more information.
