

This communication from the Colorado Oil and Gas Conservation Commission (COGCC) is an application for approval of the location on wells Caddell 2 and Andretta 3. Permit applications for these natural gas wells were submitted to the COGCC on September 4, 2013, for the Caddell 2, and September 6, 2013, for the Andretta 3. There is a public comment period for each of these applications which is open for 20 days from the time the application is submitted. The COGCC has recommended appropriate comment topics on these applications. They can be found on the Huerfano County web site under Oil and Gas information in permit application information. There is information on the procedure to submit a public comment to the COGCC on the county web site as well.

After permits are approved by the COGCC, operators must submit a County application. Conditions of approval for the county permit may be found on the county web site under Oil and Gas information, in the Oil and Gas Regulations.
